

TRAFALGAR BATTERY RAM

100% BATTERY POWERED LEAF AND LITTER VACUUM COLLECTOR

The Battery Ram is a self propelled battery driven leaf vacuum and litter collector designed for high performance.

The Battery Ram is our vacuum cleaner for leaves and waste with battery drive powered by Pellenc. Thanks to the environmentally friendly, emission-free battery drive, the leaf and waste vacuum cleaner can also be used without any problems indoors or wherever petrol-driven devices are prohibited.

Thanks to the battery, the Battery Ram is very quiet and ideal for noise-sensitive areas, e.g. in front of schools, hospitals, railway stations and shopping centers.

The 7-speed gearbox ensures optimum speed control while working. Only 76.5 dbA sound pressure level at the operator's ear. Therefore no hearing protection is necessary.

- Electric Engine
- Powered by Pellenc 1500 ULIB Battery
- Low noise and no emissions
- Perfect for noise sensitive areas
- Only 70,4 dB(A) Sound pressure level
- No hear protection needed
- Zero emissions

SPECIFICATIONS

- Engine: infinitely variable 48V electric Engine
- Battery running time: 75 minutes with Pellenc 1500 ULIB
- Drive System: 7-Gear Transmission incl. reverse gear
- Weight: 95 kg excl. battery
- max. Air Volume: 3.270 m³/h
- Thorn-protected wheels
- Output: 1,5 kW
- Display: Operating hours, Battery capacity, Engine Speed and maintenance intervall
- Security: electronic monitoring of all electrical systems and the battery
- Battery Technology: 2 x Pellenc 1500 ULIB
- Input for loading: 230V
- Ø Suction Hose: 14 cm (optional)
- Length suction hose: 3 m (optional)
- Drive speed: 4 km/h
- Vibration: 0,2 (m/s²)
- Sound pressure level: 70 dB(A)
- Sound power level: 88 dB(A)
