

**The new battery powered compact and silent pedestrian sweeper is a 'Game Changer' in Pedestrian and Street Sweeping that is guaranteed to put an 'Electric Smile' on your operator's face!**

The Eco City Sweeper 2, is manoeuvrable and much quieter than other traditional diesel powered machines, and represents a new concept in street and pedestrian cleaning.

The machine is particularly suitable for cleaning private and public spaces, including sidewalks, pedestrian areas and historical centres.

The Eco City Sweeper 2 is powered by a 24v 320 amp hour battery pack providing a 10 hour run time with an overnight charge.

For organisations that do not require such a long operating time but need flexible charging set up there is the Lithium battery pack available.

On top of the Ec friendly power source the ECS2 benefits from a filtered vacuum system making the emissions from this urban sweeper safe for pedestrian and operators alike.

**100%**  
**ELECTRIC**

The Eco City Sweeper 2 is also incredibly versatile because it can be used both as a walk behind machine, and a ride-on machine with the addition of a chariot, this offers the possibility to drive for long distances. It is also equipped with a wander suction hose for vacuuming bulky waste reaching narrow spaces such as flower beds, side benches, etc.

## SPECIFICATIONS

- Max sweeping range: 1350 mm
- Hopper capacity: 130 l
- Coverage performance: 6000 m2/h
- Motor power: 1900 W
- Maximum speed: 6 Km/h
- Maximum slope: 15%
- Central brush sweeping path: 600 mm
- with 1 side brush: 975 mm
- with 2 side brushes: 1350 mm
- Dust control with water: yes
- Filter: Polyester panel
- Filtering surface 3 m2
- Filtering shaker Electric
- Supply Battery 24 V
- Traction Electric
- Noise level 70 db(A)
- Steering range 2800 mm
- Weight with batteries 665 Kg
- Dimensions (LxWxH) 200x127x114 cm
- Working time > 6 h
