

PC 500B BATTERY PADDOCK CLEANER

Introducing the revolutionary NEW PC 500E Electric Paddock Cleaner - the ultimate game changer for paddock and yard owners! Say goodbye to the hassle of fuel and harmful emissions, and hello to a zero carbon, eco-friendly cleaning machine that gets the job done.

Are you looking for an easier way to maintain your horse or alpaca paddocks without breaking your back?

Look no further than the PC 500B Battery Paddock Cleaner! This poo-picking-suction machine comes equipped with wider, tougher terrain wheels and a swivel hitch, making it the perfect work companion for your paddock and yard. And with a new and improved clean fan system, you'll be able to tackle all that poo-picking with ease. No more manual labour or hours spent picking up after your animals!

But that's not all - the clean fan system design means no muck passes through the fan, reducing the chance of blockages and making maintenance a breeze. The lightweight yet rugged construction also makes it easy to move around your property, whether you're pulling it by hand or towing it behind an ATV, ride-on mower, or compact tractor. So why wait? Upgrade to the PC 500B Battery and enjoy a more efficient and effortless way to maintain your paddocks and yards!

The typical user for our Paddock Cleaners includes but not exclusive to;

Our Paddock Cleaners are widely used by a variety of customers, including equestrian centers of all types (from one horse owners to livery and stud yards, riding schools, etc.), alpaca and llama owners throughout the UK, poultry and game rearing farms and estates, wildlife parks and zoos, race courses, clay pigeon shoots for collecting spent clays and cartridges, and estate maintenance tasks such as emptying water troughs, cleaning gravel paths, and clearing away leaves.

The PC 500B Battery offers a range of amazing features and benefits. It can perform in any conditions, whether wet or dry. No fuel required for this battery powered machine, no pollution, just zero emissions.

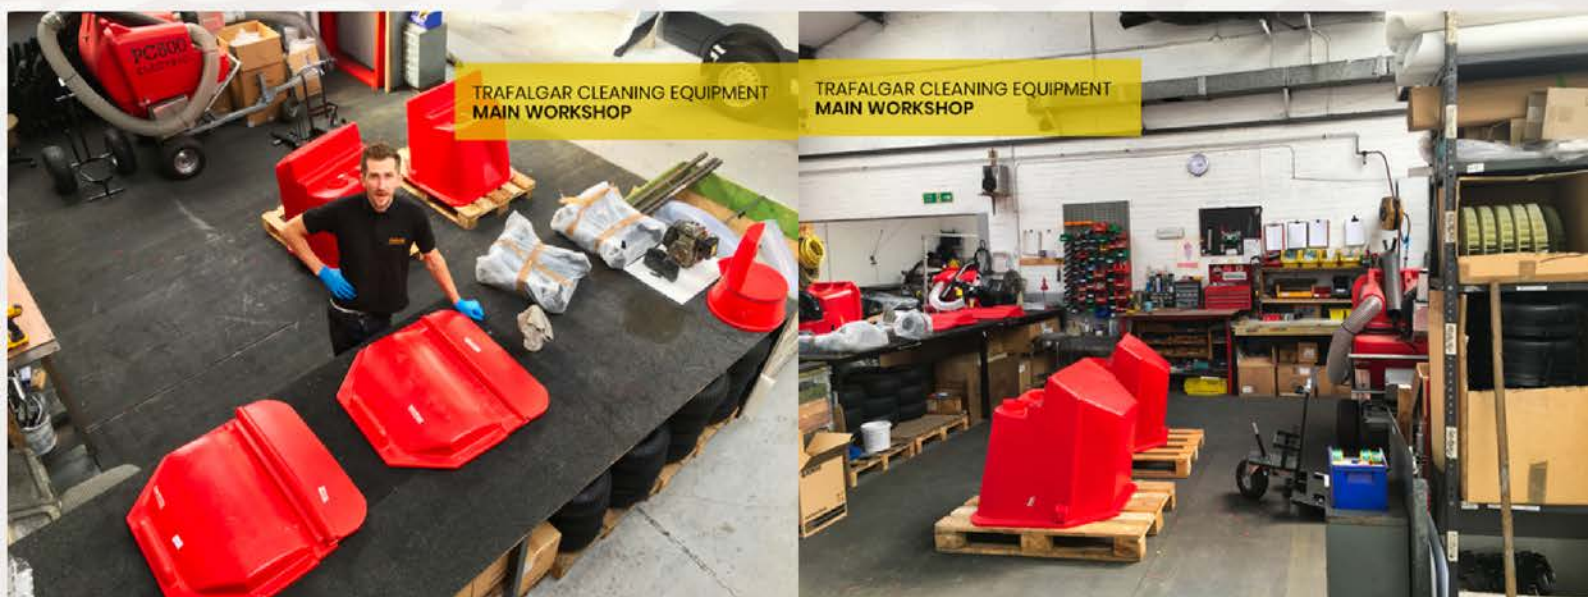

The clean fan system of the machine is designed in a way that no muck passes through it, reducing the chances of blockages and making it easy to clean. This design also results in reduced maintenance and wear. Moreover, the Paddock Cleaner has many other uses around the estate, such as collecting leaves, litter, and cleaning water troughs.
